

### Lord Rootes Scoring Formulas:

CAT will continue using the same formulas for awarding Lord Rootes competition points that we've used for the our past several Uniteds:

Popular Vote	50 pts.	$\frac{50 \times \text{votes cast for a particular car}}{\text{total votes cast}}$
Tiger Quiz	100 pts.	$\frac{100 \times \text{participant's score}}{\text{highest score}}$
Rally	100 pts.	$\frac{100 \times \text{participant's score}}{\text{highest score}}$
Autocross	100 pts.	$\frac{100 \times \text{best time in class}}{\text{participant's time (see note below)}}$
Concours	200 pts.	$\frac{200 \times \text{car's score}}{\text{highest score in class}}$

*Note: As defined in the Class Guidelines, stock class cars using high performance tires or altered front suspensions (quick racks) will incur significant deductions in concours and autocross. Autocross times for such cars will be not be used to determine best time in class for purposes of Lord Rootes scoring.*
